SUMMARY

Data Science & Data Analytics Trainee with hands-on experience in data cleaning, EDA, web scraping, and interactive dashboard development. Proficient in Python (Pandas, NumPy), SQL, Power BI, Tableau, and Excel for analyzing real-world datasets and extracting actionable insights. Trained in Machine Learning, statistical modeling, and predictive analytics, with a focus on building practical, data-driven solutions.

EDUCATION

Assiut University

B.S. — Faculty of Computers and Information — Computer Science Department **Sep 2024 – Present**

- **GPA:** 3.71/4.0 (Excellent)

EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI) **Aug 2026 – Present**

Data Science Trainee

- Cleaned and analyzed datasets across 2 projects using **Python (Pandas, NumPy, Matplotlib)**.
- Analyzed **23K+ car sales records** to identify pricing, brand, and regional sales trends.
- Analyzed **3.5K+ coffee transactions** to identify peak hours, revenue trends, and payment patterns.
- Developing skills in **SQL, Machine Learning, and predictive modeling**.

RAAKAA LTD **May 2026 – Present**

Data Entry & Administrative Specialist Oman

- Managed and maintained business and product data using **Zid, Airtable, and Microsoft Excel**.
- Entered, organized, updated, and validated **product listings, inventory data, and business records**.
- Supported daily **administrative and e-commerce operations** by maintaining accurate records and updating product information.

Information Technology Institute (ITI) **Jul 2026 – Aug 2026**

AI & Machine Learning Trainee

- Developed a **Food Delivery analysis and machine learning project** using Python, applying data preprocessing, exploratory analysis, and predictive modeling techniques.
- Applied **Python, NumPy, and statistical techniques** through hands-on training in Machine Learning, Deep Learning, Neural Networks, and Linear Algebra.
- Successfully completed **120 hours of training** in AI and Machine Learning.

National Telecommunication Institute (NTI) **Jun 2026 – Aug 2026**

Data Analyst Trainee

- Developed an interactive **Healthcare Analytics Dashboard** using Power BI to analyze healthcare operations, patient demographics, clinical insights, and financial metrics.
- Applied **SQL, Excel, and Power BI** for data cleaning, transformation, analysis, visualization, and dashboard development through hands-on training.
- Successfully completed **120 hours of training** and received a certificate with a **100% score**.

ICPC – International Collegiate Programming Contest **2025 – 2026**

Competitive Programmer

- Solved **500+ algorithmic problems** on Codeforces, strengthening algorithmic thinking and problem-solving skills.
- Ranked among the **top 30%** in the national ICPC Qualification Contest.

SELECTED PROJECTS

Food Delivery Data Analysis **2026**
Python, Pandas, NumPy, Matplotlib

- Processed and analyzed **45,593 records across 20 columns**, achieving **99.2% data cleanliness** by eliminating missing values and anomalies.
- Reduced average delivery delay metrics by **15%** by engineering features for preparation time and geographic distances.
- Executed exploratory data analysis and correlation models to optimize order distribution during peak hours.

Healthcare Data Analysis Dashboard **2026**
Power BI, DAX, Python, SQL, Excel

- Modeled healthcare operational data covering **5,855+ providers** and **53,000+ patient encounters** to increase operational insight.
- Created **12 dynamic KPI metrics** in Power BI, identifying potential cost reductions of **8%** across **$895M+** in expenses.

Books Web Scraping **2026**
Python, Requests, BeautifulSoup, Pandas

- Extracted and structured catalog datasets for **1,000+ books across 50 web pages** using custom Python web scraping scripts.
- Automated data parsing and cleaning procedures, resulting in **100% complete CSV datasets** with zero missing values.

TECHNICAL SKILLS

Programming	Python, SQL (SQL Server), C++, JavaScript
Data Analysis	Pandas, NumPy, EDA, Data Cleaning & Preparation, Statistical Analysis, Data Modeling
Business & BI	Business Analysis, Business Intelligence, Power BI, DAX
Data Visualization	Tableau, Matplotlib, Microsoft Excel
Machine Learning	Machine Learning Fundamentals, Predictive Modeling, Deep Learning, Neural Networks
Web Scraping	Requests, BeautifulSoup, HTML Parsing
Tools & Platforms	Google Colab, Jupyter Notebook, Git, GitHub, Airtable, Zid Platform
Web Development	HTML, CSS, Bootstrap, JavaScript
Languages	Arabic (Native), English (Professional Working Proficiency)

SOFT SKILLS

- **Leadership & Teamwork:** Leadership, team coordination, and effective collaboration with diverse team members.
- **Communication & Interpersonal Skills:** Strong communication skills with the ability to build positive relationships and interact effectively with others.
- **Problem Solving & Critical Thinking:** Strong analytical mindset with a structured approach to solving problems and making decisions.
- **Adaptability & Time Management:** Ability to adapt quickly, manage priorities, meet deadlines, and work effectively under pressure.
